Education and Training

Federal University of ABC (UFABC)
Ph.D. student in Neuroscience and Cognition, ongoing since September 2021
Project title: *Neural correlates of executive functioning in cognitively healthy adults: Effects of Musical Sophistication.*

Federal University of ABC (UFABC)
Master's degree in Neuroscience and Cognition, completed in October 2018
Thesis title: *Music Perception, Nonverbal Intelligence and Cognitive-linguistic Skills in Children in the Literacy Process.*

Federal University of São Paulo (UNIFESP)
Specialization in Clinical Neuropsychology, completed in December 2018
Focus: Neuropsychological Assessment of children and adolescents.

Universidade Metodista de São Paulo
Specialization in Sport Psychology, completed in December 2017
Focus: Group-based interventions with young amateur basketball players (U10-U16).

Universidade Metodista de São Paulo
BA in Psychology, completed in December 2014

Awards & Honors

2018 – SEMPRE Travel Awards, Society for Education, Music and Psychology Research.

Experiences

Research and Clinical Experience

Neuropsychologist – *Feb. 2018 - Current.* ***Self-employed***
Provide neuropsychological assessment services across the lifespan (children, adolescents, adults, and older adults), integrating clinical interviews, behavioral observation, and standardized cognitive measures. Conduct interviews and anamnesis with patients and caregivers, administer, score, and interpret neuropsychological tests, and synthesize findings into cognitive profiles and clinical hypotheses. Prepare technical documentation, including neuropsychological assessment reports and formal written records, and deliver structured feedback sessions with psychoeducation and referrals when appropriate. Collaborate with multidisciplinary health and education professionals to support case management and intervention planning.

Clinical Psychologist – *Feb. 2015 - Current.* ***Self-employed***

Provide psychotherapy services based on Cognitive Behavioral Therapy (CBT) for children, adolescents, adults, and older adults, addressing emotional, behavioral, and interpersonal difficulties. Conduct clinical assessment and case formulation, define treatment goals, and implement evidence-based interventions targeting dysfunctional thoughts and maladaptive behavioral patterns. Support patients in developing coping strategies, emotional regulation skills, and self-awareness to manage stress and life challenges. When needed, coordinate care with other health professionals to ensure integrated and multidisciplinary support.

Visiting Researcher (PhD Visiting Research Internship) – *Sep. 2025 – Dec. 2025.*

Universität Hamburg, Germany, Department of Systematic Musicology. Funded by a CAPES-PDSE Scholarship.

Prepared scientific manuscripts and participated in teaching activities in the courses Advanced Methods in Empirical Musicology, Causal Modeling in Music Psychology, and Methods of Research in Systematic Musicology.

Research Associate – *Feb. 2022 - May. 2025* ***Fundação Sopro Novo Yamaha***

Responsible for multiple stages of scientific research in Developmental Psychology, Music Cognition, and Neuroscience, working in collaboration with music educators. Developed and authored research protocols focused on the development of non-cognitive skills mediated by music education. Coordinated submissions and communications with the Human Research Ethics Committee (IRB) and with public and private partner institutions. Trained collaborators in standardized data collection procedures, conducted data analysis, and prepared progress reports in collaboration with national and international teams. The project assessed socioemotional skills and musical competencies in students from public schools in Rio de Janeiro, Brazil.

Research Assistant – *Feb. 2016* – Oct. 2018. ***Federal University of ABC***

Supported the "Neuroscience and Music at UFABC" project by contributing to research planning and implementation, including literature review, participant support, and standardized data collection procedures. Assisted with data organization, processing, and quantitative analysis, and contributed to the preparation of scientific materials for internal reporting and academic dissemination. Also participated in educational and outreach activities, including science communication initiatives and lectures for the community.

Teaching Experience

Lecturer / Professor, Psychology Undergraduate Program – *Feb. 2020 - Current.* ***University of São Caetano do Sul (USCS).***

Teach and support undergraduate training in Psychology, with an emphasis on Neuroscience, Cognition, and Psychological/Neuropsychological Assessment. Plan and deliver lectures and applied learning activities, design assignments and evaluations, and provide academic advising to students. Lead and develop educational and research-oriented initiatives through the Study Group in Neuroscience, Cognition, and Behavioral Sciences (GENEU). Provide supervision and skills training in Clinical Neuropsychology practicum/internship settings, including guidance on the administration of assessment protocols, clinical reasoning, and ethical decision-making. Support students in the preparation and review of technical documentation in Psychology, including assessment reports, professional opinions, and formal written records. Supervise undergraduate

research projects and scientific communication activities.

Courses taught (regularly):
Neurosciences: Behavior and Cognition
Clinical Practice in Neuropsychology
Experimental Psychology
Basic Cognitive Processes
Child Development
Adolescent Development

Lecturer / Professor, Psychology Undergraduate Program – *Jun. 2019 – Dec. 2019.* ***Anhembi Morumbi University (UAM).***
Taught undergraduate courses in Psychology, developing lesson plans, instructional materials, and student assessments. Provided academic guidance and supported students' learning and professional development.

Courses taught (regularly):
Biological Bases of Behavior
Psychological Assessment
Psychometrics
Basic Psychological Processes
Psychological Interventions in Childhood and Adolescence

Other Scholarly Activities

- **Student Research Mentoring**

2024 – Vinícius Zanetti Bertoloti, final paper.
2024 – Natália Oshiro Tsumura, final paper.
2022 – Raquel Campos Andrade Lopes, final paper.
2021 – Bianca Ferreira da Silva, final paper.
2021 – Rebekah Kimberly Ferreira, final paper.

2025 – Bianca Campos Cruz, scientific research.
2025 – Thais Oliveira, scientific research.
2025 – Mariana De Pieri, scientific research.
2022 – Isabelle Cristina dos Santos, scientific research.
2021 – Rebekah Kimberly Ferreira, scientific research.

- **Events Organized**

2025. International Conference on Music Perception and Cognition.
2023. Brain Awareness Week Federal University of ABC.
2023. VI Psychological Assessment Day. Municipal University of São Caetano do Sul.
2022. V Psychological Assessment Day. Municipal University of São Caetano do Sul.
2022. IV Psychological Assessment Day. Municipal University of São Caetano do Sul.
2021. III Psychological Assessment Day. Municipal University of São Caetano do Sul.
2021. II Psychological Assessment Day. Municipal University of São Caetano do Sul.
2020. I Psychological Assessment Day. Municipal University of São Caetano do Sul.
2018. II Summer course at the Neuroscience and Cognition Program.

2018. Workshop: Music and Education: Perspectives from Neuroscience, Santo André City Hall.
2017. I Summer course at the Neuroscience and Cognition Program.
2017. II Synaptic Concert at the Municipal Theater Santo André.
2017. Workshop: Music and the Brain, Santo André City Hall.
2016. Music and… Surprise! The neuroscience of surprise in the musical experience. Federal University of ABC.
2015. I Symposium on Neuroscience and Music Cognition. Federal University of ABC.

- **Invited Talks**

2025 – Delmolin, G. *Two Research Projects in Music Cognition.* Presentation at the Max Planck Institute for Empirical Aesthetics, Frankfurt, Germany.
2023 – Velloso, C., Delmolin, G., Aguilar, P. M. *Socio-emotional skills in recorder students: a prospective report*. Online event at XXVI National Congress of the Brazilian Association of Music Education.
2023 – Delmolin, G., Nepomoceno, E. B. *Are you familiar with ecological neuropsychological assessment?* Presentation at the Municipal University of São Caetano do Sul (USCS).
2022 – Delmolin, G. *Translation, Cultural Adaptation, and Content Validity of the Goldsmiths Sophistication Index into Brazilian Portuguese*. Presentation at the 5th Symposium on Neuroscience and Cognition of the Federal University of ABC, São Bernardo do Campo.
2021 – Delmolin, G., Nepomoceno, E. B. *Neuropsychological consequences of the pandemic*. Online event at the Municipal University of São Caetano do Sul (USCS).
2021 – Delmolin, G. *Intersections: Neurosciences and musical cognition.* Online event at the Federal University of São Carlos (UFSCar).
2021 – Delmolin, G. *Psychology of music: interfaces with training and practice in psychology*. Online event at the Municipal University of São Caetano do Sul.
2018 – Delmolin, G. *Neurosciences and Music at UFABC. Arts, Culture and Technology Week*. Federal University of ABC.
2015 – Ondei, R., Delmolin, G., Schiavo, M. *Musicality, performance, and musical creativity from the perspective of Music Cognition.* I Symposium on Neuroscience and Music Cognition. Federal University of ABC.

- **Poster Presentations**

2025 – Delmolin, G.; Andrade, P. E.; Mullensiefen, D.; Vanzella, P. The Relevance of Serial Order Processing in Musical Perception for Early Linguistic Development. 2nd Annual Conference on Aesthetic Development. Max Planck Institute for Empirical Aesthetics, Frankfurt, Germany.

2025 – Bozolao, M.; Souza, R.; Pessoa, J. O.; Russo, V. T.; Sallati, R. W.; Yasui, A. K.; Andrade, P. E.; Delmolin, G.; Braun Janzen, T.; Vanzella, P.; Brandao, A. L. Can a serious game detect early reading disabilities? 18th International Conference on Music Perception and Cognition. São Paulo, Brazil.

2025 – Delmolin, G., Vanzella, P. Associations between musical perception, executive functioning, and auditory working memory in cognitively healthy adults: Insights on musicality. 18th International Conference on Music Perception and Cognition. São Paulo, Brazil.

2024 – Delmolin, G., Vanzella, P. Can individual differences in musical sophistication explain associations between executive functioning and musical perception? The Neurosciences and Music VIII. Helsinki, Finland.

2022 – Delmolin, G., Moga, M., Vanzella, P. Translation, cultural adaptation and content validity of the Goldsmiths sophistication index to the Portuguese-Brazilian (GoldMSI-BR). V Neuroscience and Cognition Symposium of the Federal University of ABC. São Bernardo do Campo, Brazil.

2021 – Delmolin, G., Andrade, O. V., Andrade, P. E., Vanzella, P. Investigating musical skills in children at risk for learning disabilities: An investigation in Brazilian public schools. The Neurosciences and Music VII - Connecting with music across lifespan (Hybrid event). Concert Hall Aarhus, Denmark.

2017 – Delmolin, G., Andrade, P. E., Andrade, O. V., Vanzella, P. Using Music to Identify Children at Risk for Learning Disabilities: An investigation in Brazilian Public Schools. The Neurosciences and Music VI - Music, Sound, and Health. Harvard Medical School - Martin Conference Center, Boston.

2017 – Delmolin, G., Andrade, O. V., Andrade, P. E., Vanzella, P. Assessing musical and linguistic skills in children in the early stages of literacy in Brazilian public schools. International Symposium on Cognition and Musical Arts. Federal University of Paraná (UFPR), Curitiba.

2017 – Delmolin, G., Fraga, F. J., Sato, J. R., Vanzella, P. Pupil responses during a pitch naming task in undergraduate and graduate Music students. Brazilian Meeting on Brain and Cognition. Federal University of ABC (UFABC).

- **Presentations at Conferences**

2018 – Delmolin, G., Andrade, O. V., Andrade, P. E., Vanzella, P. Investigating the Associations between Nonverbal Skills and Musical Abilities in Children without Musical Training. International Conference on Music Perception and Cognition. Universidad Nacional de La Plata (Argentina).

- **Working papers**

Delmolin, G., Andrade, P. E., Andrade, O. V., Vanzella, P. Perception of musical sound sequences and cognitive-linguistic skills in children: A replication study.

Delmolin, G., Moga, M., Vanzella, P. The Brazilian translation of the Goldsmiths Sophistication Index: Cultural adaptation and validation of the self-report measure of musical sophistication

Core Competencies and Other kills

Languages: Brazilian Portuguese (Native) | English (C1) | Spanish (Strong reading/listening comprehension; basic speaking) | German (Elementary).

Clinical Neuropsychology: Neuropsychological assessment across the lifespan; clinical interviewing/anamnesis; cognitive profiling and hypothesis formulation; technical

documentation (reports and feedback sessions); psychoeducation and multidisciplinary collaboration.

Research & Data: Research design and protocol development; quantitative methods, data management and statistical analysis; psychometrics (instrument translation/cultural adaptation/validation); scientific writing and dissemination.

Teaching & Supervision: Higher education teaching in Psychology and Neuroscience; supervision and training in psychological/neuropsychological assessment protocols and technical report writing, academic mentoring.

Technical Skills: Jasp, R/RStudio, SPSS, Jamovi, PsychoPy and Python; experience with eye-tracking, EEG, fNIRS and TMS; preparation of technical documents, datasets and presentations.

Music: Professional musician (electric bass, acoustic guitar, backing vocals); arranging/composition/recording; DAWs (Ableton Live, Cubase, REAPER, Audacity).
